SUMMARY

AI systems engineer with hands-on experience building production-grade agentic systems and LLM-powered applications. Proficient in end-to-end delivery of conversational AI ? speech-to-text pipelines ? and intelligent tool orchestration.

WORK EXPERIENCE

OpenPRA Org

Aug 2025 – Present

Software Engineer

- Shipped fault-tree generator in 8 weeks: **Python ? TypeScript ? Node.js ? Docker ? CI/CD**.
- **Authored 25+ Jest unit tests** maintaining full coverage on safety-critical probability calculations.
- Architected **type-safe probability classes** enabling rapid testing iterations.
- Redesigned XML pipeline with lazy-parse ? cutting debugging cycles by **40%**.

NC State University

Jul 2024 – Mar 2025

Backend Engineer – Research Assistant

- Deployed **production RAG stack** with **LangChain ? FastAPI ? FAISS ? Redis**: **85% accuracy** ? sub-200ms latency.
- Engineered retrieval pipeline with **semantic chunking ? confidence thresholds** ? eliminating **60% manual work**.
- **Integrated tracing/logging** identifying bottlenecks ? driving **30% throughput improvement**.

Resilient Tech

Jan 2023 – May 2023

Software Engineer

- **Migrated ERP systems** to **Python APIs** across 5 rollouts ? cutting downtime **30%** ? sustained **99% uptime**.
- Resolved **100+ support tickets** ? lifted CSAT by **12%**.
- Built **React interfaces** with Python backend APIs using Git and Agile workflows.

PROJECTS

Restaurant Voice Hub | Python ? FastAPI ? PostgreSQL ? ElevenLabs

- Architected agentic orchestration with 5 callable tools for autonomous voice ordering.
- Engineered real-time PostgreSQL sync via CSV pipeline ? cutting menu update to seconds.
- Deployed multi-tenant architecture across Vercel/Render ? ready for scaling.

ClinicFlow | Python ? FastAPI ? LangChain ? MCP ? Docker

- Built speech-to-SOAP pipeline converting voice to structured clinical notes.
- Implemented fault-tolerant output with JSON-only structured format and graceful fallback.
- Created stdio JSON-RPC 2.0 MCP server with 3 tools and 5 protocol-layer unit tests.

Travel Agent ATLAS | Python ? FastAPI ? LangChain ? OpenAI-Compatible Proxy

- Built runtime LLM switching across 4 models with unified OpenAI-compatible proxy.
- Tracked per-request token usage and cost ? enabling live cost/performance tradeoffs.
- Fired parallel Exa neural search queries ? eliminating retrieval latency from critical path.

EDUCATION

M.S. Computer Science, North Carolina State University — May 2025

GPA: 3.63/4

B.Tech Computer Engineering, Pandit Deendayal Energy University — May 2023

GPA: 9.62/10

TECHNICAL SKILLS

Languages & AI: Python ? TypeScript ? LangChain ? FastAPI **LLM & Tools:** Claude ? Gemini ? OpenAI ? ElevenLabs

Deployment: PostgreSQL ? Docker ? Vercel ? Render **Integration:** MCP ? JSON-RPC ? API Design
